We take in old computers and peripherals for the purpose of refurbishing them and giving them back to the community - putting them in homes of those who otherwise could not afford one. The fees we charge are used to pay for the cost of the refurbishing and keeping Project Restart open to help serve the community. These fees also help pay for the cost of recycling computers and peripherals that are not fixable.

A Proud Partner in Recycling with

ELECTRONIC COLLECTION SERVICES

For Information and drop off times Please call 474-9876

Project Restart is 501(C) 3 Non-Profit. The fees are tax deductible, keep your receipt.
